Efficient, Effective, Enjoyable CPA Review

At Roger CPA Review, our mission goes beyond seeing our students pass the CPA Exam – that's a given. As CPA Exam experts, we guide our students every step of the way, making the preparation process effective, efficient and – dare we say – enjoyable. Whether you're enrolling in our tried and true Standard Course Program, or seeking to boost your score with our renowned Cram Course, passing the CPA Exam is at your fingertips.

“ Roger, your class gave me the tools to pass all four parts of the CPA exam in only four months with scores ranging from the high 80s to the high 90s! Your materials are clear and concise, your lectures are high-energy, and you are just so full of enthusiasm that I was constantly entertained. Thank you so much for making the hard stuff seem easy. ”

– Fontaine L., City College of San Francisco
